## Career Objective

---

Passionate software developer and mobile service engineer with expertise in C, Java, HTML, CSS, and mobile hardware/software troubleshooting. Seeking an opportunity to contribute my technical skills in software development while leveraging hands-on experience in device repair and problem-solving to drive innovation and efficiency.

## Education

---

**Bachelor's in Electronics and Communication Engineering** 2027

PSR Engineering College — CGPA: 7.3 (Till 6th Semester)

**Diploma in Civil** 2021

Lakshmi Ammal Polytechnic College — Percentage: 75%

**Secondary School Leaving Certificate** 2016

The Lakshmi Mills Higher Secondary School — Percentage: 59.2%

## Projects

---

### Interactive Quiz Application

*Technologies Used: Java, Data Structures (ArrayList, HashMap, Queue)*

Developed an interactive quiz app that enables users to create and take quizzes, featuring real-time answer validation, score tracking, and a history log for performance analysis.

### SRN Mobiles E-commerce Website

*Technologies Used: HTML, CSS, Bootstrap*

Designed a responsive, static e-commerce platform showcasing mobile products with a clean UI, product details, pricing, and direct WhatsApp communication for seamless customer interaction.
